

Little Powder River Watershed

Cost-Share Program Opportunity

Through Federal and State grants, the Campbell County Conservation District and the Little Powder River Watershed Steering Committee are offering financial assistance for projects that will benefit water quality.

Funding Overview

Typical projects may include installing fencing and stock water to minimize access to waterbodies, relocating corrals or animal feeding areas away from surface water, or replacing septic systems to eliminate sewage discharges. The amount of cost share available for each project varies. Projects ranked as high priority may receive up to 70% funding. If you think you would like to apply for cost-share funds through the District's water quality improvement program, you are highly encouraged to see if you are qualified.
